SCIENCE IN OUR VALLEY

SUPPORTED BY OUR VALLEY OUR FUTURE

A LOOK AT DIGITAL TECHNOLOGIES IN WASHINGTON VINEYARDS

PRESENTED BY JAKE SCHRADER

SMART FARM ENGINEERING TECHNICIAN, AGAID INSTITUTE

Free & Open to the Public

No Registration Required

Intended for 'Science-Based' Audience

The agricultural landscape has witnessed a technology explosion with the advent of sensors, drones, artificial intelligence, internet-of-things and cloud-computing. These devices provide valuable information to robots, tractors, implements, and autonomous systems, enabling the automation of tasks that are traditionally considered dull, dirty, or dangerous. The AgAID Institute is developing a Smart Vineyard in Prosser to demonstrate practical uses of these technologies in Washington vineyards. This talk will discuss some of the learnings and opportunities for new technology development and applications.

WENATCHEE VALLEY COLLEGE JACK & EDNA MCGUIRE EVENT CENTER

1300 FIFTH ST, WENATCHEE, WA 98801
